

Electrification through ECO Act

EFFICIENT FUEL SWITCHING

Limited by these criteria:

- ✓ Must reduce amount of energy used
- ✓ Must be cost-effective
- ✓ Must not add to utility peak demand
- ✓ Must reduce greenhouse gas emissions

Electric IOUs – does not qualify toward goal, cost recovery after reaching 1.75% EE goal

Natural Gas IOUs – electrification measures qualify toward 1% EE goal

COUs – qualifies after .95% EE goal met (overall goal 1.5%)
