

CommonSpirit Health Midwest Energy Solutions Conference

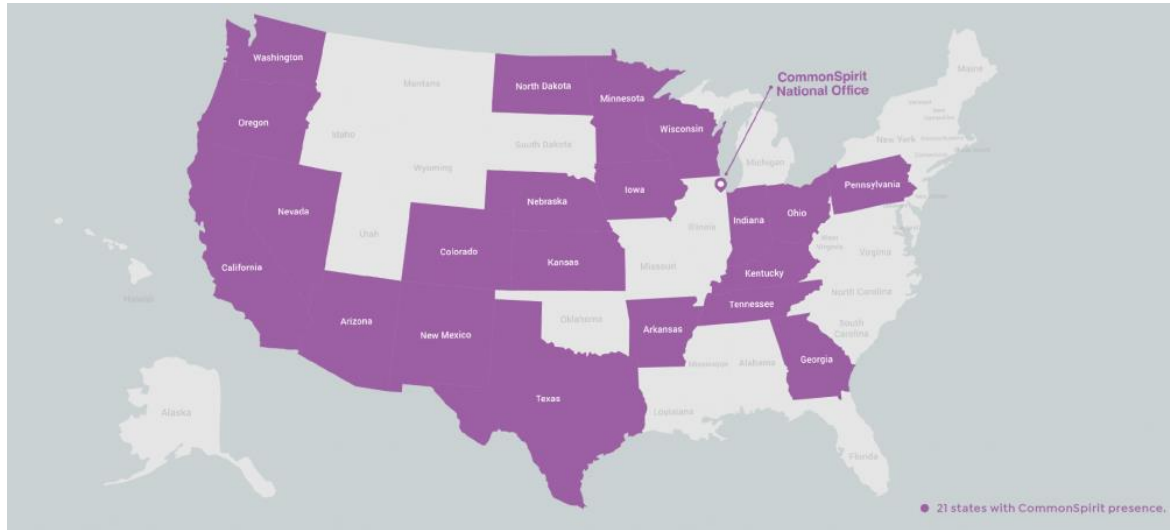

Robert W. Vandling, CEM, CRM, CDSM
Manager, Utility Services
CommonSpirit Health

Who Is CommonSpirit Health:

- CommonSpirit Health™ is committed to building healthier communities, advocating for those who are poor and vulnerable, and innovating how and where healing can happen—both inside our hospitals and out in the community.
- CommonSpirit was created by the alignment of Catholic Health Initiatives and Dignity Health as a single ministry in early 2019. This merger created the largest nonprofit healthcare system in the United States.
- Our commitment to serve the common good is delivered through the dedicated work of thousands of physicians, advanced practice clinicians, nurses, and staff; through clinical excellence delivered across a system of 137 hospitals and more than 1,000 care centers serving 21 states; and through more than \$4 billion annually in charity care, community benefits, and government program services.

Who Is CommonSpirit Health:

- Headquarters: Chicago, IL
- Over 25 acute care hospitals in the Midwest alone

Our Vision:

CommonSpirit's vision statement conveys what we aspire to be as a health care ministry, and how we will get there.

A healthier future for all – inspired by faith, driven by innovation, and powered by our humanity.

A deeper reflection on our vision statement reveals the depth of its 16 powerful words:

- **“A healthier future for all”** represents our shared calling. CommonSpirit will continually strive to create conditions and invest resources where all can experience a healthier future.
- **“Inspired by faith”** draws on the deep faith of our founding congregations as well as the faith of the thousands of employees and millions of patients and families who entrust their health care to us every day.
- **“Driven by innovation”** reflects our quest for “better” and conveys we will continuously search for new and more effective ways to heal body, mind and spirit.
- **“Powered by our humanity”** speaks to our compassion for one another. We believe in human dignity, and that simple acts of kindness – reflecting the face of God to each person – will make others experience the healing presence of God in each encounter.

2030 Sustainability Goals:

- Reducing energy consumption 25% as measured in kBtu's per square foot
- Reducing greenhouse gas emissions by 40%
- Reducing water consumption 25%
- Increasing the use of renewable energy by 20%
- Designing & constructing new facilities that are 15% below code required energy efficiency
